Declaration

- ☒ The signatory believes that the applicant is the owner of the mark sought to be registered.
For a trademark or service mark application, the mark is in use in commerce on or in connection with all the goods/services in the application or notice of allowance, or as subsequently modified.
For a collective trademark, collective service mark, collective membership mark application, the applicant is exercising legitimate control over the use of the mark in commerce by members on or in connection with all the goods/services/collective membership organization in the application or notice of allowance, or as subsequently modified.
For a certification mark application, the applicant is exercising legitimate control over the use of the mark in commerce by authorized users on or in connection with the all goods/services in the application or notice of allowance, or as subsequently modified, and the applicant is not engaged in the production or marketing of the goods/services to which the mark is applied, except to advertise or promote recognition of the certification program or of the goods/services that meet the certification standards of the applicant.
- ☒ The specimen(s) shows the mark as used on or in connection with the goods/services/collective membership organization in commerce.
- ☒ To the best of the signatory's knowledge and belief, no other persons, except, if applicable, authorized users, members, and/or concurrent users, have the right to use the mark in commerce, either in the identical form or in such near resemblance as to be likely, when used on or in connection with the goods/services/collective membership organization of such other persons, to cause confusion or mistake, or to deceive.
- ☒ To the best of the signatory's knowledge, information, and belief, formed after an inquiry reasonable under the circumstances, the allegations and other factual contentions made above have evidentiary support.
- ☒ The signatory being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or submission or any registration resulting therefrom, declares that all statements made of his/her own knowledge are true and all statements made on information and belief are believed to be true.

THE PROTOCOL FOR DIGITAL ASSETS

Tari enables creators to design new types of stories and experiences. Someday a **mesmerizing and digitally scarce asset or collectible** you covet will unlock new business opportunities for the creator and a new world of possibilities for you. **This asset will be issued on Tari.** Tari is built in Rust, private by default, and open source.

What is Tari?

Tari is a digital assets focused blockchain protocol that is built in Rust, private by default, open source, and is being architected as a merge-mined sidechain with Monero.

Built for Creators

We're building Tari for creators to have a groundbreaking level of control over their assets.

By using combinations of templates to create custom rulesets quickly and easily, creators will be able to unlock a new world of business possibilities, while delivering stunningly beautiful user experiences.

Highly Useful

Tari has all the right ingredients to be the most useful protocol for digital assets on earth.

High performance, easy to integrate with, stable, well documented, open-source, secure, and private by default.

Freedom Enhancing

Privacy is a fundamental human right.

In a world without default privacy, businesses cannot operate, our personal preferences and histories are sold to the highest bidder, and we lose the ability to conduct our lives in the manner we choose. The Tari community fundamentally believes that privacy-enhancing software should be pervasive and available to all.

Community Driven

The Tari community is comprised of many types of amazing collaborators.

Imagine a broad spectrum of brilliant creators, builders, advocates, and philosophers all working towards a single goal: to build the most useful decentralized platform that empowers anyone to create digitally scarce things people love.

Want to join the party? Everyone is invited.

Tari Labs University

The goal for Tari Labs University (TLU) is to create the best free, open source educational resource for the many technologies that comprise blockchain systems. Current topics include Schnorr signatures, scriptless scripts, bulletproofs, pure-Rust elliptic curve cryptography, MimbleWimble, merged-mining, confidential assets, and more. Have feedback or think an explanation could be improved? Have ideas for new content? Please contribute to TLU on Github.
